NILS JANSEN

CURRICULUM VITAE

n.jansen@rub.de · nilsjansen.org

AT A GLANCE

Position	Full Professor and Head of the Chair of Artificial Intelligence and Formal Methods, Ruhr University Bochum; part-time Full Professor of Safe and Dependable Artificial Intelligence, Radboud University
Distinctions	ERC Starting Grant · ELLIS Fellow · Principal Investigator, Cluster of Excellence CASA · AAAI Distinguished Paper Award
Research	More than 110 peer-reviewed papers at venues such as NeurIPS, ICLR, IJCAI, AAAI, AAMAS, CAV, and TACAS · more than 4 600 citations · h-index 42
Funding	(Co-)principal investigator of ten funded projects, with a personal budget of more than 3.4 million Euro
Group	Eleven researchers · all three PhD graduates I supervised as main supervisor became postdocs · two former postdocs are assistant professors · ETAPS Doctoral Dissertation Award 2026 for my former PhD student Thom Badings
Leadership	Built the Chair of Artificial Intelligence and Formal Methods at Ruhr University Bochum from scratch (since 2023) · Vice head of department, Radboud University (2023)
Transfer	Projects with Alfa Laval, Canon Production Printing, Ericsson Research, Stateful Robotics, and Multikopter.de · open-source tools COMICS, PROPhESY, and COOL-MC
Service	Associate Editor of JAIR · Area Chair for CAV 2027 · Area Chair or Senior PC at ICLR, AAMAS, IJCAI, and AAAI · QEST Steering Committee (since 2023)

PERSONAL DETAILS AND PROFILES

Nationality	German
Languages	German (native), English (fluent, C2), Dutch (basic, A1)
Google Scholar	scholar.google.com/citations?user=zUavkyEAAAAJ
DBLP	dblp.org/pid/32/8421-1
ORCID	orcid.org/0000-0003-1318-8973

PROFESSIONAL EXPERIENCE

Since Nov 2023	Full Professor, Ruhr University Bochum, Germany Chair of Artificial Intelligence and Formal Methods
Since July 2025	Principal Investigator, Cluster of Excellence CASA, Ruhr University Bochum, Germany CASA: Cyber Security in the Age of Large-Scale Adversaries
Since Sept 2025	Full Professor of Safe and Dependable Artificial Intelligence, part-time, Radboud University, Nijmegen, The Netherlands
July 2022–Aug 2025	Associate Professor, Radboud University, Nijmegen, The Netherlands

Feb 2020–June 2022 Assistant Professor, Radboud University, Nijmegen, The Netherlands
Tenured

June 2017–Jan 2020 Assistant Professor, Radboud University, Nijmegen, The Netherlands
Tenure track position

Jan 2017–May 2017 Research Associate, University of Texas at Austin, United States
Senior researcher in the Autonomous Systems group headed by Prof. Dr. Ufuk Topcu

Jan 2016–Dec 2016 Postdoctoral Research Fellow, University of Texas at Austin, United States
Research in the Autonomous Systems group headed by Prof. Dr. Ufuk Topcu

Apr 2015–Jan 2016 Postdoctoral Researcher, RWTH Aachen University, Germany
Research and Teaching Assistance at the *Software Modeling and Verification Group* headed by Prof. Dr. Ir. Dr. h.c. Joost-Pieter Katoen

EDUCATION

March 2015 Dr. rer. nat. in Computer Science, RWTH Aachen, Germany
Title of Dissertation: *Counterexamples in Probabilistic Verification*
Final grade: *summa cum laude* **(with distinction)**
Supervised by Prof. Dr. Erika Ábrahám and Prof. Dr. Ir. Dr. h.c. Joost-Pieter Katoen

March 2009 Diploma in Computer Science, RWTH Aachen, Germany
Title of Diploma Thesis: *Automaton-definable Tree Relations with Cardinality Constraints*
Final grade: 1.4 (very good)
Supervised by Prof. Dr. Dr. h.c. Wolfgang Thomas

AWARDS AND HONORS

2024 **Elected ELLIS Fellow**
European Laboratory for Learning and Intelligent Systems

2022 **ERC Starting Grant**
DEUCE: Data-Driven Verification and Learning Under Uncertainty

2022 **AAAI Distinguished Paper Award**
Title: *Sampling-Based Robust Control of Autonomous Systems with Non-Gaussian Noise*

2015 **Borchers Badge** of RWTH Aachen University for PhD examination with distinction
Awarded to the top 10% of the PhD students

THIRD-PARTY FUNDING

Ten projects as (co-)principal investigator, listed with my personal budget. Details on partners and positions are available on request.

Project	Funder and partners	Years	Personal budget
DEUCE: Data-Driven Verification and Learning Under Uncertainty	**ERC Starting Grant**	2023–2027	1 500 000 Euro
SPARTA: Secure and Privacy-Aware RL Agents	Cluster of Excellence CASA; with V. Moonsamy (RUB)	2026–2029	1 PhD position
FetchFly.AI: Self-learning aerial robotics	ERDF/JTF NRW; Chair of Production Systems (RUB), w3logistics, Multikopter.de	2026–2028	372 900 Euro
PrimaVera: Predictive maintenance	NWA consortium, 4.7 million Euro overall	2019–2025	840 523 Euro
Provably correct policies for uncertain POMDPs	NWO Open Competition (Klein-1)	2020–2024	295 702 Euro
SAM-FMS: Scheduling flexible manufacturing	NWO MasCot; TU/e, TU Delft, Canon Production Printing	2020–2024	223 838 Euro
EXoDuS: Explainable data science	NWA; TNO	2019–2023	100 000 Euro
ORLEANS: Offline RL for sustainable shipping	Radboud IRP; Alfa Laval	2023–2024	50 000 Euro
GRIMES: Green production	Radboud Faculty of Science; Nexperia	2020–2021	26 762 Euro
Safe planning with AI	Radboud–Glasgow Collaboration Fund	2020–2021	12 000 GBP

GROUP MEMBERS: PHD STUDENTS AND POSTDOCTORAL RESEARCHERS

Since 2026 — PhD students Florian Kuhm and Sjoerd Jansen
Ruhr University Bochum

Since 2025 — Postdoctoral Researcher Dr. Maximilian Weininger
Ruhr University Bochum

Since 2024 — PhD students Miriam Ackermann (née Schäfers), Jule Schmidt, Joshua Wendland, Markel Zubia, Postdoctoral Researcher Dr. Marcel Neuhausen
Ruhr University Bochum

Since 2023 — PhD students Eline Bovy, Maris Galesloot, and Merlijn Krale
Radboud University

2020–2025 — PhD students Thom Badings and Marnix Suilen
Both graduated in 2025; Thom Badings postdoc at the University of Oxford, now at RWTH Aachen on a fellowship; Marnix Suilen postdoc at the University of Antwerp (FWO fellowship)

2020–2024 — PhD student Christoph Schmidl

2021–2023 — Postdoctoral Researcher Dr. Thiago Simão
Now assistant professor at TU Eindhoven

2019–2023 — PhD student Dennis Gross
Graduated in 2023; now postdoc at the University of Oslo

2020–2021 — Postdoctoral Researcher Dr. Zaharah A. Bukhsh
Now assistant professor at TU Eindhoven

AWARDS OF SUPERVISED STUDENTS

2026 — **ETAPS Doctoral Dissertation Award**
Thom Badings (PhD 2025, cum laude)

2026 — VCLA International Student Award (best Master's thesis)
Wietze Koops (Master's thesis, co-supervised with Sebastian Junges)

2026 — IPA Dissertation Award
Thom Badings

2026 — KHMW Kees Schouhamer Immink Prize (Proefschriftprijs)
Thom Badings

2025 — Honorable Mention, AAAI/ACM SIGAI Doctoral Dissertation Award
Thom Badings

2024 — KHMW Young Talent Award, Computer Science (first place)
Wietze Koops (Master's thesis *Algorithms for Dec-POMDPs*)

2023 — BNAIC/BeNeLearn Best Thesis Award
Eline Bovy (Master's thesis)

2023 — Christine Mohrmann Stipend for promising female PhD students, Radboud University
Eline Bovy

2022 — ICAART Best Student Paper Award
David Kerkkamp (Master's student), *Grouping of Maintenance Actions with Deep Reinforcement Learning and Graph Convolutional Networks*

TEACHING

Since 2023 — **Ruhr University Bochum**

First year — Preparatory course in computer science (Python; also organizer) · Introduction to Programming (CS1, Python, from 2027/28) · Programming and Programming Languages · each for several hundred students

Lectures — Programming for Modern Machine Learning (new) · Formal Verification and Model Checking · reinforcement-learning part of Introduction to Artificial Intelligence

Labs, projects — Challenging Problems in Reinforcement Learning (new) · study project on multi-agent reinforcement learning

Seminars — Safety and Reliability in Artificial Intelligence · Theory of Decision-Making under Uncertainty

Since 2017 — **Radboud University** (responsible lecturer and course coordinator)

Bachelor — Processors (mandatory, seven years) · Operating Systems (mandatory, 2017–2020)

Master — Model Checking (since 2017), in the specialization Mathematical Foundations of Computer Science · seminar of that specialization

Supervision — 23 Bachelor's and 27 Master's theses (Radboud and Bochum), nine of them published with the student as first author (ICLR, IJCAI, AAAI, ICAPS, ICAART) · 16 research internships

Qualifications	University Teaching Qualification (BKO/UTQ), Radboud University, 2020 · Academic Leadership program for Assistant and Associate Professors, Radboud University, 2023

KEYNOTE TALKS

2026	Upcoming keynote (November), 8th International Workshop on Formal Methods for Autonomous Systems (FMAS 2026)
2026	Upcoming keynote, IPA Fall Days 2026, Dutch research school IPA (Institute for Programming research and Algorithmics)
2025	Keynote, International Conference on Runtime Verification (RV 2025): *Neurosymbolic Learning Systems: Artificial Intelligence and Formal Methods*
2025	Keynote, International Conference on Rigorous State-Based Methods (ABZ 2025): *Neurosymbolic Learning Systems: Artificial Intelligence and Formal Methods*
2025	Keynote, Research Training Group UnRAVeL, RWTH Aachen University: *Neurosymbolic Learning Systems: Artificial Intelligence and Formal Methods*
2023	Keynote, 25th International Symposium on Formal Methods (FM 2023): *Intelligent and Dependable Decision-Making Under Uncertainty*
2023	Keynote, 12th Workshop on Synthesis (SYNT 2023), co-located with CAV 2023: *Intelligent and Dependable Decision-Making Under Uncertainty*
2023	Keynote, Workshop on Verifiable and Robust AI (VRAI), Denmark: *Uncertainty Is Inevitable*

SELECTED INVITED TALKS

2026	AI Colloquium, Lamarr Institute and Research Center Trustworthy Data Science and Security, TU Dortmund: *Safe Learning Systems: Artificial Intelligence and Formal Methods*
2025	Technion – Israel Institute of Technology: *Neurosymbolic Learning Systems: Artificial Intelligence and Formal Methods*
2025	NVIDIA: *Neurosymbolic Intelligent (Reinforcement) Learning Systems*
2025	IT University of Copenhagen: *Reliability and Safety in Artificial Intelligence: How Can AI Systems Make Dependable and Safe Decisions Under Uncertainty?*
2024	Center for Autonomy Seminar, Oden Institute, UT Austin: *Artificial Intelligence Planning: Uncertainty Is Inevitable*
2024	Bosch Center for Artificial Intelligence, Renningen: *Artificial Intelligence Planning: Uncertainty Is Inevitable*
2024	Tutorial, Summer School MOVEP 2024: *Decision-Making Under Uncertainty Meets Neurosymbolic AI: Foundations, Challenges, and Highlights*
2024	Lecture, Neuro-Symbolic AI Summer School 2024, Centaur AI Institute (online): *A Neurosymbolic Meetup of AI and Formal Methods*
2024	Inaugural lecture, Ruhr University Bochum: *Neurosymbolic Intelligent Learning Systems*
2023	Colloquium, Institute for Neural Computation, Ruhr University Bochum: *Decision-Making Under Uncertainty*
2023	Department of Computer Science, University of Oxford: *Dependable Decision-Making Under Uncertainty: Beyond Probabilities*
2023	Digital Futures, KTH Royal Institute of Technology, Stockholm: *Neuro-Symbolic Artificial Intelligence: Intelligent Decisions Under Uncertainty*

2023 2nd Workshop on Open Problems in Learning and Verification of Neural Networks (WOLVERINE), co-located with CAV 2023: *Safe Reinforcement Learning*

2022 1st Workshop on Safe Reinforcement Learning, co-located with IJCAI 2022: *Safe RL: A Collection of Flavors*

2022 RL-CONFORM Workshop, co-located with IROS 2022: *Safe Reinforcement Learning under Partial Observability*

2022 AI Colloquium, TU Dortmund: *Intelligent Decision-Making Under Uncertainty: Beyond Probabilities*

ORGANIZATION OF SCIENTIFIC EVENTS

2024 Dagstuhl Seminar 24361: Artificial Intelligence and Formal Methods Join Forces for Reliable Autonomy

2023 AISoLA 2023: Track C2 Chair

2023 Dagstuhl Seminar 23492: Model Learning for Improved Trustworthiness in Autonomous Systems

2023 Lorentz Center Workshop: Predictive Maintenance: Let Data Maintain the Model

2022 Lorentz Center Workshop: Rigorous Automated Planning

2021 Flavors of Uncertainty in Verification, Planning, and Optimization (FUNCTION)
Co-located with ICALP 2021

2021 National Symposium for Dutch researchers in the field of Software Engineering (SEN)
At CWI Amsterdam

2018 Dagstuhl Seminar 18121: Machine Learning and Model Checking Join Forces

2018 Robots, Morality, and Trust through the Verification Lens (ReMOTE)
Co-located with CAV 2018

2017 Formal approaches to Explainable VERification (FEVER)
Co-located with CAV 2017

EDITORIAL BOARDS

Since 2025 Associate Editor, Journal of Artificial Intelligence Research (JAIR)

Theme Editor-in-Chief (with Bernhard Steffen) of the theme *Explanation Paradigms Leveraging Analytic Intuition (ExPLAIn)*
International Journal on Software Tools for Technology Transfer (STTT)

REVIEWING ACTIVITIES

Steering Committee:

Since 2023 QEST (International Conference on Quantitative Evaluation of SysTems)

Program Committees:

2027 CAV (Area Chair)

2026 IJCAI (Senior PC), AAAI (Senior PC), FMCAD, TACAS

2025 ICLR (Area Chair), AAAI, QEST, NeurIPS, NFM

2024 AAMAS (Area Chair), TACAS, AAAI, QEST, NeurIPS

2023	Quantitative Evaluation of Systems (QEST, co-chair), NeurIPS, AAAI, IJCAI, ICLR, ICML, SETTA
2022	AAAI, AAMAS, BNAIC/BeNeLearn, COMPSAC, ICLR, ICML, IJCAI, MOVEP, NeurIPS, QEST
2021	AAAI, AAMAS, ADHS, FASE, ICLR, ICML, FM, NeurIPS, QEST, SPIN
2020	Formal Modeling and Analysis of Timed Systems (FORMATS, co-chair), ICML, IJCAI, NeurIPS, QAVS, SETTA
2019	ICANN, IJCAI, NeurIPS, QEST, SETTA
2018	FORTE, ICE, ICT.OPEN, PhD-iFM, SKILL, TACAS Artifact Evaluation

PhD Reviewer or Committee Member:

Clarissa Costen (University of Oxford), Stefanie Mohr (TU Munich), Pascal van der Vaart (TU Delft), Daniel Scholz (TU Dresden), Jakob Haahr Taankvist (Aalborg University), Mohsen Gaffari (IT University of Copenhagen), Alnis Murtovi (TU Dortmund), Maximilian Schlüter (TU Dortmund), Xiatong Cheng (Ruhr University Bochum), Florent Delgrange (Vrije Universiteit Brussel and University of Antwerp), Théo Matricon (University of Bordeaux), Raphaël Reynouard (Reykjavik University), Kush Grover (TU Munich), Qisong Yang (TU Delft), Zhuofan Xu (ENS Paris-Saclay), Steven Carr (UT Austin), Simon Jantsch (TU Dresden), Ivan Gavran (MPI-SWS), Leonore Winterer (University of Freiburg), Alexis Linard (Radboud University), Rick Smetsers (Radboud University), Konstantin Kueffner (IST Austria)

Habilitation Committee Member:

Petr Novotný and Vít Musil (Masaryk University, Brno)

Reviewer of Grant Applications:

ERC Consolidator Grants, French National Research Agency (ANR), Vienna Science and Technology Fund (WWTF), German Research Foundation (DFG), Novo Nordisk Foundation, Schmidt Sciences

Journal Reviewer:

ACM Transactions on Modeling and Computer Simulation, ACM Transactions on Computational Logic, Acta Informatica, Journal of Artificial Intelligence Research, International Journal of Robotics Research, Science of Computer Programming, IEEE Control Systems Letters, IEEE Transactions on Reliability, IEEE Transactions on Automatic Control, Journal of Automated Reasoning, Journal of Systems and Software, Theoretical Computer Science

External reviewer:

ACC, ATVA, CAV, CDC, CONCUR, FACS, FM, FMOODS–FORTE, FORMATS, FOSSACS, FSEN, FSTTCS, FTSCS, HSCC, IFM, Petri Nets, QEST, SIMULTECH, TACAS, TASE, VMCAI

INSTITUTIONAL RESPONSIBILITIES

Since 2026	Member of the Faculty Council (Fakultätsrat) of the Faculty of Computer Science, Ruhr University Bochum
Current	Coordinator of school outreach, Faculty of Computer Science, Ruhr University Bochum
Current	Member of the advisory council (Beraterkreis) of the Faculty of Computer Science, Ruhr University Bochum
Since 2025	Member of the Academic Advisory Board (Studienbeirat) of the Faculty of Computer Science, Ruhr University Bochum
2026	Appointment committee for a professorship in Quantum Computing at Ruhr University Bochum

2026	Appointment committee for a lecturer in Practical Computer Science at Ruhr University Bochum
2023	Vice head of the Department of Software Science at Radboud University Nijmegen
2022	Appointment committee for a full professorship in Data Science at Radboud University
2022	Chair of the appointment committee for a professorship in Machine Learning at Radboud University
2020	Appointment committee for several professorships in Digital Security at Radboud University
2019–2023	Organization of the internal seminars at the Software Science Institute at Radboud University
2018–2023	Member of the Program Committee for teaching (Opleidingscommissie) at Radboud University
2014–2016	Member of the examination board in Computer Science at RWTH Aachen University
2014–2016	Member of the commission for teaching in Computer Science at RWTH Aachen University
2010–2011	Steering committee member of the graduate school AlgoSyn at RWTH Aachen University

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

Since 2024	ELLIS Fellow European Laboratory for Learning and Intelligent Systems
Since 2020	ELLIS Member European Laboratory for Learning and Intelligent Systems
Since 2019	VERSEN Dutch National Association for Software Engineering
Since 2016	ETAPS European Joint Conferences on Theory and Practice of Software

MEDIA

2024	MIT Technology Review: Mathematik	KI braucht dringend Nachhilfe authored by Eike Kühl
2022	AIhub: Developing safe controllers for autonomous systems under uncertainty authored by Thom Badings and Nils Jansen, published by the Association for the Understanding of Artificial Intelligence
2021	Communications of the ACM: Approach to AI Offers More Certainty in the Face of Uncertainty
2023	I/O magazine: How can AI better handle uncertainties in the real world? authored by Bennie Mols
2023	TechGelderland: Using data to make the world safer authored by Joep Peters

2021	Innovation Origins: A new model reduces uncertainty in AI authored by Cindy Cloin
2021	Computable: Radboud maakt kunstmatige intelligentie slimmer Alfred Monterie
2021	Bits&Chips: Radboud and TUE help improve AI decision-making Nieke Roos
2021	Executive-People: Nieuwe AI benadering biedt meer zekerheid bij onzekerheid

PUBLICATIONS

So far, I have published more than 110 peer-reviewed articles in conference proceedings and journals. According to Google Scholar (November 2026), I have more than 4 600 citations (h-index 42, i10-index 81).
